

COURSE DESCRIPTION	SPEAKER	COURSE DETAILS
<p>Fundamentals of Dental Technology- Digital Intraoral Scanning</p> <p>Digital scanning of patients is becoming more and more routine in dental practices around the world. Dental professionals are seeing the benefits of scanning all patients in their practices for a number of reasons. Dental hygienists specifically are playing a more pivotal role in utilizing digital scanning technology to help patients understand their current oral conditions, as well as help track any changes over time. Through this certification course, Dental Hygienists will be shown an overview of the benefits of Intraoral scanning. In addition to this, they will better understand how to use specific scanning techniques to get detailed scans, efficiently while minimizing unwanted soft tissue artifacts. Once a detailed scan has been acquired, it will be demonstrated how to review the findings with patients and what relevant information they can extract from these scans. Once completed, Dental Hygienists will feel far more confident in utilizing digital scanning technology routinely on their patients. Deep dive into the subject matter.</p>	 <p>Dr. Volinder Dhesi</p>	<p>January 28, 2025 & October 28, 2025</p> <p>8:00 - 9:30 PM EST</p> <div>   </div> <p>1/28/2025 10/28/2025</p> <p>Tuition: Complimentary CE Credits: 1 AGD Pace Subject Code: 490 Periodontics</p>
<p>The Dental Hygiene Process of Care - Periodontal Care: Diagnosis and Treatment Strategies</p> <p>This presentation will delve into the critical aspects of periodontal diagnosis and treatment, focusing on practical applications in clinical settings. Participants will explore comprehensive assessment techniques before scaling. The presentation will cover pre-treatment strategies and address the timing and techniques for polishing before scaling and best practices for post-scaling care. In addition, methods for case acceptance of fluoride treatments address common issues related to tooth sensitivity. Participants will leave with a deeper understanding of effective periodontal care and treatment options to enhance patient outcomes.</p>	 <p>Tulsi Patel, RDH, MHA</p>	<p>February 18, 2025 & December 8, 2025</p> <p>8:00 - 9:15 PM EST</p> <div>   </div> <p>2/18/2025 12/8/2025</p> <p>Tuition: Complimentary CE Credits: 1 AGD Pace Subject Code: 490 Periodontics</p>
<p>Curved Ahead: Successful Implementation of Left and Right Ultrasonic Instruments</p> <p>Curved left and right ultrasonic instruments have distinct traits that disrupt and remove biofilm, surpassing the capabilities of other instruments. In this session, Dani will ignite your enthusiasm and strengthen your clinical knowledge as she guides you on how this unique technology can and should be an integral part of debridement procedures. This webinar aims to provide an interactive experience from the comfort and convenience of your own home. Via a specialized camera, Dani incorporates live demonstrations and if a typodont and curved inserts are available, participants are encouraged to follow along.</p>	 <p>Dani Botbyl RDH</p>	<p>March 18, 2025 & September 16, 2025</p> <p>8:00 - 9:30 PM EST</p> <div>   </div> <p>3/18/2025 9/16/2025</p> <p>Tuition: Complimentary CE Credits: 1.5 AGD Pace Subject Code: 490 Periodontics</p>
<p>What's on Your Tray?</p> <p>Elevate your clinical skills with an evidence-based approach to the contemporary use of ultrasonic instrumentation. View ultrasonic instrumentation as a "triple threat" to address all clinical needs of every patient while embracing the benefits of ultrasonic technology and the importance of appropriate insert/tip selection for What's on Your Tray!</p>	 <p>Dr. Harold A. Henson</p>	<p>April 24, 2025</p> <p>8:00 - 9:15 PM EST</p> <div>  </div> <p>Tuition: Complimentary CE Credits: 1 AGD Pace Subject Code: 490 Periodontics</p>

COURSE DESCRIPTION	SPEAKER	COURSE DETAILS
<p>Elevating Patient Comfort with Needle-Free Subgingival Anesthesia</p> <p>Pain experienced during periodontal procedures can lead to irregular attendance, cancellations and poor oral health outcomes¹. Managing gingival discomfort is essential and can be achieved with needle-free anesthesia (NSA). Join Sarah, a bilingual independent dental hygiene practitioner, in this exciting case-study based course as she shares her experiences with NSA and how to enhance the overall patient experience and the success of your dental hygiene treatment outcomes. The course will include an anesthesia overview, NSA dosage, delivery, clinical images, and personal anecdotes.</p> <p>1. Stein Duker LI, Grager M, Giffin W, Hikita N, Polido JC. The relationship between dental fear and anxiety, general anxiety/fear, sensory over-responsivity, and oral health behaviors and outcomes: a conceptual model. Int J Environ Res Public Health. 2022;19(4):2380. doi:10.3390/ijerph19042380. PMID: 35206566; PMCID:PMC8872083.</p>	 <p>Sarah Opetz DHP, BDSc(DH)</p>	<p>May 28, 2025</p> <p>8:00 - 9:15 PM EST</p>  <p>Tuition: Complimentary CE Credits: 1 AGD Pace Subject Code: 340 Anesthesia and Pain Management</p>
<p>The Enigma of Curved Versus Straight: Unlocking the Secrets of Ultrasonic Insert Selection</p> <p>Discover the unique designs, benefits, and ideal applications of curved and straight ultrasonic inserts, helping you optimize their use in various clinical scenarios. This webinar includes case studies, photographs, and personal anecdotes to offer a practical, hands-on understanding of these tools in action. Additionally, a live demonstration on a typodont will showcase the real-time application of the techniques covered.</p>	 <p>Sarah Opetz DHP, BDSc(DH)</p>	<p>June 17, 2025</p> <p>8:00 - 9:15 PM EST</p>  <p>Tuition: Complimentary CE Credits: 1 AGD Pace Subject Code: 490 Periodontics</p>
<p>Key Points for Infection Prevention</p> <p>This presentation will examine infection control principles. Participants will learn about the transmission of infectious agents, the importance of standard precautions, and the role of sterilization and disinfection protocols in preventing the spread of infections. The course will also cover regulatory requirements and guidelines set forth by organizations such as the Centers for Disease Control and Prevention (CDC) and the Occupational Safety and Health Administration (OSHA).</p>	 <p>Dr. Harold A. Henson</p>	<p>July 10, 2025</p> <p>8:00 - 9:15 PM EST</p>  <p>Tuition: Complimentary CE Credits: 1 AGD Pace Subject Code: 490 Periodontics</p>
