

## Webinar

# Fundamentals of Dental Technology- Digital Intraoral Scanning

## Course Description

Digital scanning of patients is becoming more and more routine in dental practices around the world. Dental professionals are seeing the benefits of scanning all patients in their practices for a number of reasons. Dental hygienists specifically are playing a more pivotal role in utilizing digital scanning technology to help patients understand their current oral conditions, as well as help track any changes over time. Through this certification course, Dental Hygienists will be shown an overview of the benefits of Intraoral scanning. In addition to this, they will better understand how to use specific scanning techniques to get detailed scans, efficiently while minimizing unwanted soft tissue artifacts. Once a detailed scan has been acquired, it will be demonstrated how to review the findings with patients and what relevant information they can extract from these scans. Once completed, Dental Hygienists will feel far more confident in utilizing digital scanning technology routinely on their patients. Deep dive into the subject matter.

## Learning Objectives

- Interpreting intraoral scanning of patient dentition.
- Evaluate the benefits of intraoral scanning.
- Identifying how to integrate intraoral scanning into the hygiene workflow. Explain how to utilize intraoral scans as an important communication tool with patients reviews of scans to patients, ensuring they understand the findings, potential implications and any necessary next steps.
- How to interpret findings on scans, as well as occlusal heat mapping and their relevant clinical information.
- Outline Interpret relevant clinical information on intraoral scans such as occlusal heat mapping and communicate relevant treatment options.

## Featured Speaker

### Dr. Volinder S. Dhesi

Dr. Volinder S. Dhesi is a 2003 graduate of the University of Saskatchewan. His practices are in Calgary, Alberta with his scope primarily restorative focused including comprehensive esthetics and CAD/CAM dentistry. He is a graduate of the Kois Center as well as the Las Vegas Institute. Currently, he is a Key Opinion Leader for Dentsply Sirona, as well as teaching faculty at Dentsply Sirona Academy Canada. Outside of Dentistry, he spends much of his spare time with his wife of 20 years and their 3 children. He is WSET 3 certified in wine in spirits and shares his passion for both wine and dentistry on his Instagram handle @thedentalwineguy.

**Speaker Disclosure:** Speaker is being compensated by Dentsply Sirona for this event, but does not have monetary or other interest(s) with Dentsply Sirona or any other company whose products are discussed or presented in this presentation.

## Program Details

### Date & Time

Date: October 28th, 2025

Time: 8:00 PM - 9:30 PM EST

Registration Deadline: *October 28th, 2025, 7:00 PM EST*

### Location

Live Zoom Webinar

### Tuition & CE Credits

Tuition: Complimentary

CE Credits: 1

AGD PACE Subject Code: 490 Periodontics

Method: Lecture
